CHAPTER FIFTEEN

RELAPSE?

Among the many believers in Wallamo land, there was a young man who periodically had come under demon possession before he took his stand as a Christian.

After his acceptance of the Lord, however, I saw a very long period of time when he seemed to be normal. Then suddenly he again seemed to come under the spell of demonism.

When he was once again in his right mind and questioned by believers, he admitted lapses of faith and going back to the old life.

As I heard the story, he himself believed that he was possessed again because of living loosely and wavering faith.
